CT-S1

Simply Focused on You

Functionality and design that is all about you, with a simple interface and a color palette to suit every aesthetic and complement any décor. Create the perfect atmosphere with the CT-S1's sleek look and uplifting sound. Lighten your mood and brighten your day.

Sound That Truly Moves You

The CT-S1 features AiX Sound Source, an innovative technology designed to enable electronic instruments to produce perfect tones and, combined with the integrated acoustic sound system, bring each note to life. Recharge yourself with inspiration. Feel energized and encouraged to play more.

The Heart of a Champion

Keyboardists can choose from 61 exquisitely crafted tones in the CT-S1 including acoustic piano, electric piano and organ - so you're guaranteed to find your favorites. Developed by expert engineers, Casio's ADVANCED TONES allow you to experience the grandeur and flair of performance with modern ease.

Small in Size, Big in Inspiration

Music and innovation will always be at your fingertips. The CT-S1's slim body will fit into any space, giving you the flexibility to match your playing style to your mood, with a form that fits into all kinds of tight spots. There are even pins for attaching your favorite strap, so you can experience the freedom of playing without a stand or desk.

Connect with Your Music

With the Wireless MIDI & Audio Adaptor WU-BT10*, you can pair your smartphone or tablet to your keyboard via Bluetooth®, then listen to or play along with your favorite songs through the CT-S1's powerful speaker system. Personalize your experiences with the Chordana Play app, while other MIDI-enabled apps and external devices let you experiment freely as you explore new and fun ways to listen, adapt and create musical experiences. * sold separately
